Welcome to The Script Factory: SCENE, a Festival packed with live events produced by The Script Factory, in association with United International Pictures, and as part of the 46th Regus London Film Festival. SCENE has a new look this year and a new focus on 'creative film making' which we've set out to cover from just about every angle: creative **partnerships**, creative **UK**, creative **realities**, creative **futures**, and creative **minds**. We hope that the diversity of filmmaking championed in SCENE - from *Wayne's World* to *Le Fils*, and from poetic documentary to Disney - will be inspirational for everyone who appreciates quality and variety across cinema styles. If you're a screenwriter, we want SCENE to send you home to write furiously; if you're a film fan, we hope that these sessions will take you further behind the scenes than you could have imagined. And whoever you are, we *know* that you'll find SCENE a place to excite your imagination.

The Return of The Script Factory Social Club Just when you thought it was safe to go back in the bar...
